▶ Heightened security and auditing

- Privileged session recording and monitoring
- Agent-based and agentless deployments (per-endpoint deployment, jump server deployment, and any hybrid network architecture)
- One-time passwords
- Two-factor authentication
- Manual login approval
- Time-based restrictions for user access to log in
- Audit logs and forensic export
- Alerting on critical actions (rule-based alerts, UEBA module)
- Manual and automated incident response

▶ Exceptional stability and performance

- High availability
- Disaster recovery
- Health monitoring dashboards
- Internal audit log
